

# FREE

## Holiday Greens Recycling!

### For Seattle Residents

### If you subscribe to Curb/Alley Yard Waste Collection...

Cut your tree into sections 6 feet long or less, and trim the branches to less than 4 feet across. Bundle the sections with string or twine (no metal or plastic) and set the bundle out with your yard waste (separate from your garbage) on your regular yard waste collection day.

### Free drop-off at the Recycling and Disposal Stations...

Drop your tree off for FREE at the North or South Recycling and Disposal Station from December 26 to the second Sunday in January. Trees must be cut into sections 8 feet or less in length. The trunk must be 4 inches in diameter or less. This free program is open to Seattle residents only. Up to three trees per vehicle will be accepted for free at the Recycling and Disposal Stations.

### Important Reminders

- Do not burn your tree in your fireplace. The extreme heat can create fire hazards such as a chimney fire.
- Remove all ornaments, tinsel and lights from your tree.
- Flocked trees are not recyclable.
- Residents bringing in flocked trees or trees with tinsel, etc. to the Recycling and Disposal Stations will be charged the garbage rate.
- Residents who bring trees to the Recycling and Disposal Stations before December 26 or after the second Sunday in January will be charged the regular yard waste rate.
- If your regular collection day falls on Christmas and New Year's Day this year, your service will be one day later that week.

**North and South Recycling and Disposal Station hours:  
Sunday thru Saturday - 8 AM to 5:30 PM  
(206) 684-3000**
